

24-port fiber optic connection panel

Overview

This 24 port LC fiber patch panel is a versatile solution in multiple sizes (1U/2U/4U) and styles for building backbones, data centers and enterprise applications. The tray is locked by 2 plastic latches and lowers to a 45deg angle when fully extended. 3-C and TIA/EIA-604 FOCIS standards, and the adapter sleeves are made of zirconia ceramic to ensure connection precision. It has four cable entry points on the back fitted with rubber grommets to protect the fiber optic cable from damage. The Swing-Out Patch Panel is a light-weight, robust fiber optic patch panel designed for the installation of up to 48 standard optic fibers. The lower tray is designed to pivot to gain access to the pre-formed fiber and splice. The Centrix™ System is a high-density fiber management system that provides a balance of industry-leading density with innovative jumper routing. Centrix System supports up to 4,320.
