

CE5855 Switch with 10G Fiber Port

Overview

CE5855-EI-B-B00 Switch offers 48 GE ports, 4 10G SFP+, and 2 40G QSFP+ ports. com CloudEngine 5855-48T4XS supports Layer 3 features such as OSPF, IS-IS, BGP, and VRRP, meeting DCN requirements. user policies (VLAN, QoS, and ACL). DoS attacks are targeted at switches and. CloudEngine 58&68&78&88&98 Series CE5855-48T4XS: Access product manuals, HedEx documents, product images and visio stencils. The Huawei CE5855-EI-F-B00 from the Huawei CloudEngine 5800 Series is a high-performance, energy-efficient data center and enterprise aggregation switch designed to deliver exceptional scalability and reliability. Built for next-generation campus networks, enterprise cores, and data center access. Huawei CE5855 48T4S2Q EI Data Center Switches are high performance network devices designed for data centers and large scale enterprise networks. With 336 Gbit/s capacity, VLAN support, and stackable design for robust networks.
