

China Unicom terminal box cannot connect to the Internet

Overview

Navigate to Settings → Network & Internet → SIMs → [China Unicom SIM]. Observe that options for MMS messages, VoLTE (or 4G Calling) and Wi-Fi Calling are unavailable. Check the network status; note that the device connects to LTE but not 5G. Allow making and receiving calls. This article aims to explore the potential reasons behind this problem and provide actionable solutions to ensure seamless database. FixChinaCarrier is a utility that resolves these issues by providing real-life solutions to users who experience network disruption or restrictions while using Chinese carriers. I chatted online with their tech support and we tried a number of alternative DNS providers (114dns. com, Norton etc) to see if it was CU blocking them but it made no. Upon activating the sim card, android makes it very clear that the sim is set to China Unicom and upon scanning for networks to set the sim to, every single one is “forbidden”. I then tried manually setting the APN details for my telco but when i set the MCC and MNC numbers on the config, the. Incorrect APN Configuration: The default APN settings do not match the carrier's specifications, leading to potential data connectivity issues. Insert the China Unicom physical SIM into the Pixel device.
