

Currently the largest optical cable

Overview

Fibre-optic Link Around the Globe (FLAG) is a 28,000-kilometre-long (17,398 mi; 15,119 nmi) fibre optic mostly- submarine communications cable that connects the United Kingdom, Japan, India, and many places in between. Furukawa Electric Group company Lightera has started mass production of 13824 count optical fiber cable for hyperscale data centers featuring one of the world's highest fiber densities. Also, within the Mie Works (Kameyama City, Mie Prefecture) of Furukawa Electric, the No. Their extensive North American manufacturing footprint positions them as a critical supplier for major telecom carriers and federally-funded infrastructure projects. The cable is operated by Global Cloud Xchange, a former subsidiary of RCOM. The global optical fibers market was valued at USD 10. 98 billion in 2023 and is projected to reach USD 18. 80% during the forecast period (2023-2032). This expansion is driven by surging demand for high-bandwidth networks, 5G. This updated list ranks the 20 largest fiber-optic cable companies worldwide and summarizes what each vendor is best known for—core product lines, regional strengths, and typical project fit. Use it as a fast shortlist when planning new FTTH/FTTA or data-center builds. We note certifications. This visualization shows the growth of the undersea cable network, global internet peering capacity, and the distribution of IP addresses via BGP announcements over time.
