

Distribution box and rainproof box

Overview

A robust waterproof distribution box shields sensitive components from moisture, dust, and mechanical impacts. This guide primarily analyzes structural engineering characteristics, technical specifications, and actual installation procedures to achieve optimal field performance. Built with durable materials, CE & ROHS certified. Contact us for custom solutions! **HIGH STRENGTH CONSTRUCTION** The electric box is made of galvanized steel, which is double electrostatically sprayed for a long service life. Thanks to its reinforced aluminium back strap, it can be adapted to different environments. Whether it's a bustling indoor setting or the unpredictable outdoors, these enclosures are meticulously designed to ensure optimal. SELHOT's plastic power distribution boxes (plastic distribution boards) are impact and oxidation resistant, making them ideal for use in waterproof and dustproof environments.
