

F35 Distribution Box

Overview

As part of the Universal Relay (UR) Family, the F35 provides cost-effective solutions and features high-performance protection, expandable I/O options, integrated monitoring and metering, high-speed communications, and extensive programming and configuration capabilities. This feature is optimized for speed and intended for pilot- aided schemes, distributed logic applications, or the extension of the input/output capabilities of a single relay chassis. GE Multilin F35 Multiple Feeder Protection. Delivery time is estimated using our proprietary method which is based on the buyer's proximity to the item location, the shipping service selected, the seller's shipping history, and other factors. Delivery times may vary, especially during peak periods. Sell Surplus: Have a F35-G00-HKH-F8R-H6N-M8R-P6N-UXX-W6N to sell?
