

Fiber optic splicing cable price

Overview

A: The price varies significantly by type. On average, Single-mode (OS2) ranges from \$0. Factors like armor, jacket rating (LSZH), and raw material indices influence the final ex-factory. The cost of splicing fiber optic cables can vary significantly based on several factors, including the type of splice, the equipment used, the location of the job, and the expertise required. Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination. For most commercial projects, expect to pay \$50-\$150 per fusion splice point - but that number can swing in either direction based on the factors below. The "per splice" rate is the most. Shop fiber fusion splicers designed for FTTH and telecom applications. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. It depends on who your client is. Most pay \$18 and up to \$40 per loosetube and up to \$200 per ribbon.
