

High-density fiber optic cable clamps IP65 in stock

Overview

We supply professional-grade fiber optic cable clamps designed to securely fasten and protect fiber cables in indoor/outdoor, data center, and conduit installations. Our clamps prevent loosening, abrasion, and over-bending, ensuring long-term reliability and optimal. Cable clamps manufactured from PA66 and operating temperature up to 115°C. They anchor to the wall or panel stably and reliably offering secure insulation and mechanical and electrical protection to the cable. They ensure an anti-pull, anti-thrust and anti-twist function. The use of the clamp is. Optical Distribution Network (ODN) is composed of OLT and user equipment interconnected by optical fibers, splitters, and connectors, with downstream signal streams coming to the user interfaces and upstream signal streams for OLT processing purposes. This device consists of splitting a single. These general purpose of various fiber cable clamps provide easy solutions for fiber optic network cabling. Meanwhile, there are always easy way for FTTH. ZMS Cable is a world leading manufacturer in the field of fiber optic communications.
