## Overview

For a 144-port ODF, use 12-fiber LC UPC bunch pigtailed. Color coding helps avoid mistakes. Use it to verify ports before rollout. Fiber optic pigtailed are available in various types: Grouped by pigtailed connector type, there are LC fiber optic pigtailed, SC fiber pigtailed and ST fiber pigtailed, etc. And by fiber count, 6 fibers, 12. How to Classify Different Types of Fiber Pigtailed?

Fiber optic pigtailed come in several types. Another classification is by fiber type, which includes single-mode. For example, according to the fiber type, they can be divided into single-mode fiber optic pigtailed and multi-mode fiber optic pigtailed; according to the connector type, they can be divided into SC, LC, FC, ST and other pigtailed; according to the number of cores, there are single-core, dual-core.
