

How to hide a router with fiber optic cable

Overview

Place the modem and router in a wicker basket, metal laser-cut box, or cable organizer to keep the modem and router out of sight. If the router is in a highly visible area, you can rearrange furniture, add plants, or set out framed photos to cover the modem and router. Wi-Fi routers often clash with home decor, standing out as eyesores in otherwise stylish spaces. These essential gadgets, while necessary for modern living, typically feature blinking lights and unsightly antennas that disrupt visual harmony. Most homeowners face this common dilemma when trying to. Keep reading to learn how to hide your modem and wifi router without blocking the signal, router cover or box options, and more. A tall and narrow wall-mounted storage unit can hide a router and some other stuff if you need it, and it won't take any floor space. Conceal Within a Bookshelf Image by rawpixel.
