

Hybrid Energy System 1MWh

Overview

This fully integrated solution combines a high-performance 500kWp solar photovoltaic (PV) array with a 1MWh Battery Energy Storage System (BESS), engineered to deliver reliable, clean power and optimize energy consumption for demanding industrial applications. This system is certified to IEC. Megarevo PCS Solar Inverter with Isolation Transformer – Efficient & Reliable Power Conversion The Megarevo PCS Solar Inverter features a built-in isolation transformer for robust load adaptation and 97. It supports flexible parallel configurations and both AC/DC redundant power. ESS-GRID FlexiO is an air-cooled industrial/commercial battery solution in the form of a split PCS and battery cabinet with 1+N scalability, combining solar photovoltaic, diesel power generation, grid and utility power. This robust setup maximizes energy efficiency and offers continuous power, even in remote areas or during. Henan Qiangxin New Energy Technology Co. is a technology-based enterprise specializing in integrated energy storage system solutions.
