

Inquire about waterproof server racks

Overview

Find reliable waterproof server rack solutions with IP55/IP65 protection, 19-inch standard width, and 42U height. Ideal for outdoor data centers and network cabinets. Click to explore top-rated, customizable options from verified suppliers. Unlike indoor data cabinets, these units carry formal Ingress Protection (IP) ratings. NEMA 12 enclosures are constructed for indoor use and provide a degree of protection to internal equipment against circulating dust, falling dirt, lint, and fibers. Additionally, NEMA 12 server cabinets provide some water resistance and protect server equipment from water infiltration due to. Learn effective strategies to safeguard server racks from water damage, including tips on placement, sensors, and flood prevention techniques. Imagine walking into your server room, only to find equipment soaked from an unexpected leak or a minor flood. Built to NEMA 4X from stainless steel, Armagard's Waterproof Rack Mount Cabinet can safely house conventional rack-mountable equipment up to a maximum capacity of 18U.
