

Intelligent Photovoltaic Dedicated Multimeter

Overview

Powerful Solar Panel Tester This solar panel tester photovoltaic multimeter accurately evaluates the power of solar panels with a power range of 5-800W, voltage of 12-60V and current 0-35A. It detects faulty modules in no time at all and helps with optimal placement for maximum energy yield. Featuring a spacious screen and automatic measurement capabilities, this device conveniently. The CAT III 1500 V/CAT IV 1000 V True-RMS Fluke 283 FC Digital Multimeter and a283 FC True-RMS Wireless Current Clamp set the new standard for technicians in DC environments up to 1500 V. Whether you're working with a utility-scale solar photovoltaic (PV) array, wind power, an electric railway, or. High-quality solar multimeters designed specifically for photovoltaic system installation, maintenance, and troubleshooting. Full function with gear display, analog bar multiple display. It is the best choice for professional electrician, engineer, electronic enthusiast or family use.
