

Managed Switch 2 Fiber Optic 8 Electrical

Overview

This TCP/IP managed switch has two 1000 SFP ports for fibre optic and eight 10BASE-T/100BASE-TX ports for copper cable. 3W and maximum number of switches in a ring is 50. This product offers you a smart and flexible way. Managed Industrial Ethernet Switches are purpose built for reliable networking in harsh industrial environments such as factory automation, transportation systems, utilities, and energy infrastructure. These switches are engineered with rugged metal housings, wide operating temperature ranges. Discover fiber switches designed for reliable network connectivity. With eight copper ports and two fiber optic ports, this device supports a variety of Ethernet services, including VLAN configuration, multicast filtering, and. A managed network switch allows Ethernet devices to communicate and interact with one another within the same network. They also allow for seamless communication between Ethernet and. The Schneider MCSESM103F2CU0H is an enhanced managed switch designed specifically for industrial control systems. Manufacturer: Schneider Electric.
