

Myanmar Hotspot IP54

Overview

Robust and reliable: the 5G hotspot features an improved IP54 design that resists drops, dust and water ingress, making it suitable for harsh environments. LED indicator lights allow easy monitoring of data usage, signal strength, certifications, and device and network. HIGH SPEED Experience the world's fastest connection speeds with the portable 5G WiFi 6 4x4MIMO hotspot. Enjoy download speeds of up to 2.25Gbps, which is 15 times faster than 4G. 11 a/b/g/n/ac/ax protocols, ensuring stable data transfer and optimized performance for all devices. The portable travel hotspot is equipped with a 10000mAh large capacity. Key Features: Say no to lag and enjoy 4G. Multiple terminals can access the Internet at the same time. Support mobile phones, tablets, notebooks, computers, smart TVs, and other electronic equipment. This tutorial will walk you through setting up the APN (Access Point Name), internet, hotspot, and MMS configurations for Mytel on Android, iPhone, and modem in 2026. These settings support all network types: 2G, 3G, 4G, LTE, VoLTE, and 5G, so you can enjoy optimal internet speed with your Mytel. MiFi is a brand name used to describe a wireless router that acts as a mobile Wi-Fi hotspot. The coverage of MiFi router is limited and only suitable to connect. Get WiFi in all major Myanmar cities, tourist attractions & destinations including Yangon, Mandalay, Nay Pyi Taw, Mawlamyine, Bago, Patheingyi, Monywa, Sittwe, Meiktila, Myeik. Whether you are a business traveler.
