

New energy storage battery cabinet for local area network use

Overview

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC-compliant energy storage systems designed for renewable integration, peak shaving, and backup power. Factory assembled with LFP (Lithium-Iron-Phosphate) battery modules and Vertiv's internally-powered battery management system, Vertiv EnergyCore cabinets are available globally and are qualified for use with most current and legacy three-phase Vertiv™ uninterruptible power supply (UPS) systems. The Warehouse Base Station Energy Cabinet is an Indoor-Floor Standing cabinet for communication base stations, smart cities, smart transportation, and power systems. This sturdy structured cabinet houses network servers, Edge computers, monitoring systems, and energy storage to provide. The Outdoor Integrated Cabinet is a compact and high-level protection solution, featuring an embedded power system that can be customized according to customer requirements. Designed for optimal performance, safety, and scalability, they ensure seamless integration with BESS.
