

Price of fiber optic cable laying by excavator

Overview

Here is the 2026 benchmark for cost of laying fiber optic cable per foot by method: Open trench (lawn/field): \$0. 80 per ft – fastest, lowest cost. Directional boring (road crossing, driveway): \$3. If you install underground fiber, pricing your HDD work right is the fastest way to protect margins without sacrificing win rate. However, compared with aerial fiber networks, underground deployment typically requires higher upfront investment because of excavation work, cable protection. Buyers typically pay for fiber laying by combining material costs, labor time, and permitting plus trenching or aerial support fees. The main cost drivers are trench depth, fiber count and type (single-mode vs multi-mode), conduit requirements, and local permitting rules. 70/ft for the cable) underground. There would be four 2'x3'x2' "subsurface hand holes" (about.
