

Price of hardware for installing distribution boxes

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. Typical costs are driven by box type, material (plastic vs metal), and whether the box is new construction or a retrofit. If you're planning any electrical work, one of the small but important items on your list will be the junction box. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. Whether it's an office buildout or a warehouse renovation, this calculator provides a good starting point for planning.
