

Price of wiring conduit and cable tray

Overview

Wireways and cable trays price structures are dominated by material costs, which account for 60-70% of total project expenses. Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion. Joe quickly realized the difference between spending 15 EUR/meter on rigid conduit versus 9 EUR/meter on cable trays would mean thousands of euros saved on the project – but only if installation complexity didn't add hidden costs. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation. 2 Why is Conduit So. Cable tray are used in wiring of buildings to support electrical cables and wires that are used to distribute power, controls and communication. The price is based on standard length of the cable tray which is 2.
