

S6720 Switch Optical Module

Overview

The S6720-LI series switch includes three models with a switching capacity of 1.8Tbps, supporting packet forwarding rates of 240Mbps and 480Mpps. It is equipped with high-density 10GE and 40GE ports and is typically paired with 10G SFP+ optical modules and 40G QSFP+ . When the optical module on an interface is faulty, you can run the display commands to view information about the optical module. Related Information Video Identify a Huawei-Certified Optical Module Run the display transceiver [interface interface-type interface-number | slot slot-id] [verbose]. The S6720-LI series, a new generation of Huawei's compact all-10G box switches, is designed for use in campus networks and data center 10G access. In this article, ETU-LINK will introduce the port configuration, advantages and optical module matching solutions of. The following table lists the available models in the S6720-LI series.
