

Smart Distribution Box Power Strip

Overview

This intelligent power distribution unit (PDU) remotely manages and controls the power supply of up to 4 devices via TCP/IP and network connection. Ideal for remote control and management of electrical equipment, whether commercial, residential or industrial. Based on the innovative SUM (sustainable, scalable, and maintainable) design concept technology. The box gets power from the utility company. Each circuit sends power to different rooms or things in your home. This setup helps keep your house safe and lets you control electricity better. Your home distribution box should do more than just split. The Kasa Smart Plug Power Strip HS300 is the best smart power strip for most people because it offers the perfect balance of individual outlet control, energy monitoring, and reliable smart home integration without breaking the bank. You can choose from 6 versions based on your power socket type. The ASD Products Turtle Power Distribution Kit is ideal for users who need to convert their home's 240V dryer or range outlets into multiple 120V power sources.
