

The manufacturer of integrated power supplies is

Overview

Integrated Power Designs (IPD) is a US based power supply manufacturer of AC/DC and DC/DC supplies with wattages ranging from 25W to 400W. Since their founding in 1985, IPD has been committed to creating quality product while minimizing their overall environmental impact. IPD offers DC-DC power supplies in the 70-185W range operating at input voltages of 9-18 VDC, 18-36 VDC, or 36-72 VDC. Reinforced Insulation is provided between primary & secondary circuits AVAILABLE NOW! is the NXT-1000 - 1000 Watt AC-DC Single Output Power Supply! Click here to read more. FSP Power Solution showcases high-performance chargers for electrified industrial vehicles up to 1800 W at iVT Expo 2026, featuring integration-ready designs and system-level performance. FSP Power Solution, a European representative of the FSP Group, delivers certified, high-efficiency power. The GRN-360 power supply from Integrated Power Designs is a highly efficient, reliable, and compact 360 W AC/DC power supply. Their US Power Supplies are sold to General Industries, including Medical, Automotive, Telecommunications and Test Instruments.

About FSP Power Solution

FSP Power Solution delivers certified, high-efficiency power supplies—engineered in Germany for AI, medical, industrial, and e-mobility applications.

Plug Power | Green Hydrogen & Fuel Cell Solutions

Plug is the only company delivering a complete hydrogen platform, from production and liquefaction to storage, delivery, and power generation. These are not

IS& S Rebrands to Innovative Aerosystems

Key highlights of the rebranding campaign include the following: New brand identity. Innovative Aerosystems is a U.S.-based company that specializes

Global Top 15 Wind Turbine Manufacturers

Check out our blog for the best wind turbine manufacturers, including the largest OEMs in the wind industry and leading wind power generation companies.

Power supplies - Full power for your production

With our decentralized DC power management, we stand out in the field of 24/48 VDC power supplies, which have become indispensable in almost all plant

AI factory liquid cooling & power infrastructure

End-to-end solutions for integrated direct-to-chip liquid cooling, CDUs, and power infrastructure for AI factories—optimized for GPU densities above 100
